The Northern Alberta Pointing Dog Club (NAPDC) will conduct two CKC licensed WATER DOG JUNIOR (WDJ) tests for all pointing breeds near Millet, Alberta on Tuesday, June 18, 2024 (**Note: depending on weather or water quality, the date will move to Saturday, June 29, 2024**). A dog requires three qualifying scores to be awarded the title of Water Dog Junior (WDJ). NAPDC is offering two tests on one day to support dogs and handlers in achieving that title. The tests will be held under the rules of The Canadian Kennel Club, 5397 Eglinton Avenue, W, Suite 101, Etobicoke, ON M9C 5K6.

Description of WDJ test

The purpose of the water tests for pointing breeds is to provide an opportunity to demonstrate a dog's ability to retrieve from water. These tests gauge the natural hunting abilities for which they were originally bred, against standards of performance. The standard of performance for WDJ, below, is excerpted from the CKC rules:

Water Dog Junior (excerpted from CKC rules)

Water Entry. For optimum performance, the dog shall exhibit no hesitation, requiring no encouragement or coaxing when entering the water to perform the retrieve.

Marking Ability. Marking or memory of falls is of paramount importance. Ability to mark does not necessarily imply pinpointing the fall, but a dog should proceed directly to the area of the fall and establish the retrieve. For optimum performance, the dog should swim in a direct straight line.

Retrieve. Dog should quickly do a straight out and straight back, taking the bird with a single grasp and do a 180° turn without any hesitation.

Delivery. As long as the bird is received by the handler who must remain in the circle (a 12' foot diameter circle will be marked near the entry point to the water), the dog can be outside the circle when delivering the bird. For full marks, the dog is required to enter the circle with the bird.

Control. For a perfect score, the dog requires no commands other than the send off and delivery.

Reaction to Shot. A perfect score would be given to a dog that exhibits alertness and eagerness at the sound of gunfire. A passing grade will be awarded to the dog that softens but does not bolt. Gun shyness will be an automatic failure.
