Gamekeepers Retrievers workshops are considered to be among the best of their kind. Mitch White is one of those rare dog trainers who is just as good with people as he is with the dogs he trains. The content of each workshop is personalized based on the individual needs, goals and interests of each participant. We evaluate where each dog/handler team is at in training, help them develop an individual training plan and teach each handler how to implement the plan to achieve success. Working spots in these workshops are limited so that each dog/handler team will get individual, intense instruction. Auditors are welcomed and encouraged. You will learn a great deal from watching other dog/handler teams work and Q&A is welcomed.
